

CUSTOM HOME

Bellevue, WA

Superior Style and Quality, Dependable Products and Services

Less than a mile from the shore of Lake Washington in Bellevue sits a new custom home that adds not only a beautiful property to the neighborhood on the outside, but also a showcase of luxury storage products on the inside, with fashionable designs in almost every room of the house. The storage features of the home were built to exact specifications with varying configurations and tailored to the home's style.

Stylish Storage for Every Room

"We were very happy with the final design. Having worked with Closet Creations for almost four years, we've come to place great trust in the company and in the ClosetMaid products they provide," says Joe Naeseth, Owner of MN Custom Homes. "In each and every project, working with Closet Creations is a no-brainer. And all of our homeowners love the closet systems - they place great value in them."

"We build 20 homes every year, and we use ClosetMaid products on all of them. In the entire history of our company, we have never had a defective ClosetMaid product."

Products

ClosetMaid's MasterSuite® system was installed in almost every room of this 5 bedroom/4.5 bath Bellevue home, including bedrooms, bathrooms, the kitchen, hallways, the study, the mudroom, and a game room. Although each configuration varied, all featured the paired elegance and durability of MasterSuite in White with White Shaker drawer fronts, soft-close rails, and chrome hardware.

ClosetMaid manufactured the systems to the homebuilder's exact specifications, meeting requirements for higher ceilings. MN Custom Homes chose to incorporate a number of unique touches using MasterSuite in the home, including corner shelving in the bedrooms and pantry, customized space for hanging clothes in the laundry room, and a his/hers island in the master closet.

In addition to their supreme durability, ClosetMaid products have always offered MN Custom Homes flexibility with a wide range of configurations and styles to suit any home they are building.

"The style of most of our homes is traditional, but occasionally we build a more modern type of home. We like to work with ClosetMaid because they can provide closet systems for both. They offer a great variety of styles and colors for any aesthetic," adds Naeseth.

Unrivalled Design and Installation Services

The ClosetMaid sales team always works closely with dealers and installers to ensure that every product is pristine and every project is worry-free. The Bellevue home was no exception.

"We build 20 homes every year, and we use ClosetMaid products on all of them. In the entire history of our company, we have never had a defective ClosetMaid product," says Naeseth. As ClosetMaid's dealer and installer for the Bellevue home, Closet Creations collaborated with the ClosetMaid sales team to provide the homebuilder with an easy and seamless closet design and installation. The results are top-tier storage systems befitting a quality custom home - stylish and well-built to satisfy the finest of tastes.

"Our experience with upscale, custom projects of this kind allowed us to ensure a smooth and flawless install for MN Custom Homes," says Brandon Olson, Owner of Closet Creations. "We look forward to the next one."
